PHILADELPHIA, WED'Y., SEPT. 22, 1909

Commissioner Franklin K. Lane, of the Interstate Commerce Commission, who recently returned from Europe, is reported as having said (and we quote from Philadelphia Record of September 21st) "that there are hundreds of millions of dollars in England, France and Germany awaiting investment in American railroad securities as soon as the investors can be assured of absolute Federal regulation." Continuing Mr. Lane says: "Believe that America is on the eve of a phenomenal era of prosperity and are ready and anxious to invest their money in any stable enterprise in this country, but what they want is some assurance from the government that their investments will be protected in a fair way. They would like to see the capitalization of our railroads hedged about by Federal legislation, so that a purchaser of stock would be assured of getting what he paid for. With the enactment of a law to prevent over-capitalization, American railroads would have no difficulty in obtaining in Europe all the money necessary for their development." We insist that something more is needed, as there are few men outside of tourists that have visited America who properly appreciate the fact that this is not only a country of magnificent distances, but a country of wonderful future possibilities. New sections of the country are being constantly opened up to settlers, which will necessitate the expenditure of immense sums in the extension of our great trunk lines, as well as branches in many directions, and it is easy for us to understand how people abroad would improperly interpret the application of money in this direction, as the self-same over-capitalization to which Mr. Lane refers. The development of our railroads means extension as well as the physical improvement of those already established, and it is fair to assume that some educational effort on the part of our government is absolutely necessary to make the Europeans who have money understand as well as appreciate the vast area of the United States as well as the many thousands of square miles awaiting

the coming of the settlers, as the average European is too apt to measure America by what he knows of distance in Europe as well as European necessities, while the fact is that a trip from Paris to Rome involves but little more, if any travel, than a trip from Philadelphia to Pittsburgh and probably not as much under the American method of running trains. Of course it is presumable that the bankers and stockbrokers of the great cities of Europe know as much about the status of American railroads as well as the nature of our country as we do, but why shouldn't the European gleaner of money be made acquainted with the possibilities referred to in order that he may act on his own account and buy twenty, fifty or one hundred shares of railroad stock through a broker with the self-same confidence as an American of the same status, this is the point we make and we think it a good one. And we think that our consular service might be profitably utilized in this direction and indeed we hold that it is just as applicable to houses as to railroad securities unless there are laws prohibiting it.

ARCHITECTS' NOTES

E. Allen Wilson, architect, 815 Land Title Building, has about completed plans for thirteen two-story flat houses, to be erected on the south side of Walnut street, between Fifty-fifth and Fifty-sixth streets. They measure 40 x 70 feet, and contain four flats each, consisting of living room, two chambers, bath, dining room, kitchen, and pantry, and ample closet room. Laundry facilities are provided in the basements. They have fire-proof porches extending along the whole front. Designed in a modernized Colonial style in red press brick, with white marble trimming and white paint. Mr. Willson, who originated this type of flat house in Philadelphia, has given particular attention to all details in this, his latest plan. Six of these buildings will be erected by the Philadelphia Flat and Apartment House Company, and seven by Richard McDuggall.

D. L. Ward, 619 Ranstead street, has purchased the property of Milton B. Medary, Sr., in Cynwyd, Pa., and will improve the same.

Henry Dagit, architect, 411 Walnut street, has finished plans for altering the residence at 1707 Green street into an apartment house, for Clarence Marks.

Charles W. Bolton & Son, architects, Witherspoon Building, has invited estimates on the four stores, to be erected in Ardmore, Pa., for Henry Becker.

Brookie & Hastings, architects, 328 Chestnut street, have completed plans for a two and a half-story stone residence, 58 x 162 feet, to be built on Paper Mill road, Chestnut Hill, to cost about \$100,000, for Charles M. Welsh, Druckenmiller & Stodhouse, architects. Real Estate Trust Building, Broad and Chestnut streets, have invited estimates on alterations and additions to a residence in Morton, Pa., on the grounds of the Dermody Sanatorium.

James D. Winchell, Betz Building, has sold seventy lots, measuring 14 x 38 feet each, on the east and west sides of Ringgold street, between Somerset and Cambria streets, for \$30,000, to Wm. T. Gabell, who will improve the same.

Dade & Hildebrand, 627 Walnut street, have sold a large tract of ground, bounded by Fifty-sixth, Fifty-seventh, Catharine and Webster streets, to John M. Hendricks, who will build an operation of porch front dwellings on the site.

Bailey & Bassett, architects, 421 Chestnut street, have invited estimates on the one-story and attic stone garage, 28.2 x 24.4 feet, to be built in Oak Lane, for Mrs. Sallie A. Welsh. Daniel W. Sperry and F. L. Hoover & Sons, builders, are estimating.

Ballinger & Perrot, architects and engineers, 1211 Arch street, have invited estimates on the two-story stable, 51 feet square, to be built at Juniata and King streets, for the American Pulley Co. Appleton & Burrell, builders, have plans posted.

James M. Castle, 8436 Germantown avenue, has sold to Jacob S. Disston a tract of ground, measuring 100½ x 128 feet, on the southeast side of Gravers Lane, above Germantown avenue. It is stated that the purchase was made for the purpose of making improvements.

Wesley Lesher Blithe, architect, 608 Chestnut street, has completed plans for a one-story stone church, 65 x 125 feet, to be built at Fifty-third and Chestnut streets, for St. Matthews Methodist Episcopal congregation. Bids for its erection will be invited in the early spring.

At a meeting held by the building committee of the Grace Evangelical Lutheran Church in Roxborough it was decided to sub-let the contract for their proposed new edifice, to be built at Ridge and Roxborough avenues. Plans by Herman Miller, architect, 1420 Chestnut street.

The John B. Stetson Hat Company, Fourth and Montgomery avenue, have plans under way for an eight-story brick office and factory building, 207 x 150 feet, to be built at Fifth and Montgomery avenue, to cost about \$150,000. The building is being designed by the company's engineers.

McIlvain & Roberts, architects, Land Title Building, have invited estimates on a two and a half-story stone and frame residence, to be erected on Wister Road, Ardmore, Pa., for H. W. Moorehouse, to cost about \$15,000. Fred A. Havens & Co., Metzger & Wells and E. J. Hedden, builders, are estimating. Bailey Heacock & Hokanson, architects, Bailey Building, have completed plans and invited estimates on same for a seven-story and basement brick factory and warehouse, measuring 251 x 82 feet, to be built in Bristol, Pa., for William H. Grundy & Co. Wm. R. Dougherty and Stacy Reeves & Sons, builders, are estimating.

The William Steele & Sons Co., builders, 1600 Arch street, have a contract to design and erect a ten-story brick, concrete and terra cotta factory building, measuring 72 x 125 feet, to be built on the east side of Twelfth street between Pearl and Wood streets, to cost about \$150,000, for the Smaltz-Goodwin Shoe Company.

Architect C. W. Bier, 503 Smith Block, Pittsburg, Pa., has revised plans for the church to be erected at Bridgeville, Pa., for the Methodist Episcopal congregation.

The cost will be \$20,000. The former bids for the construction of the building were too high and new bids have been invited.

Charles M. Wells, architect, Rutledge, Pa., has finished plans for a two-story brick hall building with stores on the first floor, 36 x 43½ feet, to be built at Fifty-second street and Woodland avenue, for Thomas L. Smith. The same architect has also finished plans for a twin frame residence, to be built at Swarthmore, Pa., for C. A. Smith. It will be heated by hot water.

Horace Trumbauer, architect, Land Title Building, has completed plans for a two and a half-story stone colonial style residence, measuring 72 x 36 feet, with a 32 x 20 foot wing, to be built at Wissahickon avenue and Horter street, for Joseph Waserman. HAZLETT & MOSS REMOVED.

Messrs. Hazlett & Moss, formerly located at 627 Walnut street, on Saturday last took possession of the firm's new building at 518 Walnut street, the old location having been sold as one of the many sights purchased for the new Curtiss building. The new Hazlett & Moss building is of the Colonial type with an impressive entrance, a roomy vestibule of Tennessee marble. The offices of the firm are entirely free of ostentation, the fixtures are rich and particularly well adapted for the purposes required, and indeed the visitor is impressed with the idea that he has entered a banking house, and while this idea is not literally correct, the business embraces an important feature of the banking business, for in the same sense as railway expansion is underwritten by the bankers, the firm of Hazlett & Moss practically underwrite building operations, which it is able to do through the concentration of large capital interests which have a decided preference for real estate investments, and, indeed, the firm's ability in this direction is so far-reaching that in 1904 it furnished a very large share of the investment that year in operative building, which certainly represents progressive evolution in a high degree.

GINGER! GINGER!! GINGER!!!

The placing of orders recently by several of our Eastern Railroads for 325,000 tons of steel rails, means an infusion of *ginger* in industrial energy far beyond the comprehension of most men. Follow, if you can, the potent influence this will have on labor. The labor involved in getting the iron ore; the making of hundreds of thousands of tons of steel rails, and their transportation; the laying of the rails; the new ties that will be used and the labor involved in their production as well as the labor in placing them. Yes, labor, labor, labor in every direction, even to the turning of the wheels over these self same thousands of tons of steel rails. It is the *ginger* in business that pushes things onward and upward, until the whole world is amazed at the wonderful prosperity of the people of the United States. There is *ginger* in the knowledge as to who needs you, who must make contracts for work and material. The columns of the **REAL ESTATE RECORD** are filled weekly with this kind of *ginger*, and there are thousands right here who know it. This *ginger* costs but little. Subscribe now and cash up. Subscription \$5.00 per year always in advance.

GINGER!

GINGER!!

GINGER!!!

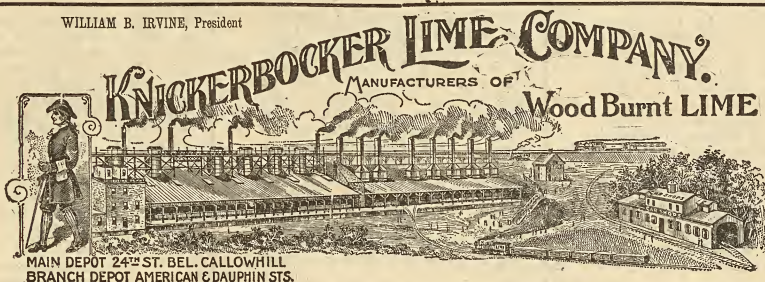

The placing of orders recently by several of our Eastern Railroads for 325,000 tons of steel rails, means an infusion of *ginger* in industrial energy far beyond the comprehension of most men. Follow, if you can, the potent influence this will have on labor. The labor involved in getting the iron ore; the making of hundreds of thousands of tons of steel rails, and their transportation; the laying of the rails; new ties that will be used and the labor involved in their production as well as the labor in placing them. Yes, labor, labor, labor in every direction, even to the turning of the wheels over these self same thousands of tons of steel rails. It is the *ginger* in business that pushes things onward and upward, until the whole world is amazed at the wonderful prosperity of the people of the United States. There is *ginger* in the knowledge as to who needs you, who must make contracts for work and material. The columns of the **REAL ESTATE RECORD** are filled weekly with this kind of *ginger*, and there are thousands right here who know it. This *ginger* costs but little. Subscribe now and cash up. Subscription \$5.00 per year always in advance.

We Invite Inspection of Our Building and Facilities

ARCHITECTS' NOTES

The services of many of our architects have been in demand in distant localities; notably Horace Trumbauer, Frank Miles Day & Bro., Cope and Stewardson, Wilson Eyre, Newman & Harris and others where much future work has been planned. The treatment of suburban residences has been particularly pleasing, not only in those constructed for private occupancy, but even more markedly in high class investment houses. Indications, by the way, would seem to point to a continuation of the demand for small country homes at the expense of the city operation. The year has brought forth a realization of the practicability and advisability of concrete as a factor of construction in other than mills, etc., and Philadelphia has upheld her reputation for advancement in this construction as exemplified by numerous buildings constructed and articles written on this subject by local men. One of our numerous examples of advanced treatment of a building is instanced in a dairy barn at Clifton Heights, erected by C. R. Knapp & Co., from plans and specifications of Architect Oliver Randolph Parry, 1723 Chestnut street, some salient features of which The Real Estate Record believes may be of general interest. The barn follows closely the recommendations of the United States Government Department of Agriculture; half the space being separated for the accommodation of the cows and the other divided into bull and calf pens, box stalls, feed and cooling rooms. A central driveway extends from end to end with doors at various points. The walls are double, of concrete, reinforced with steel rods and arranged for self ventilating. The cow stalls are separated by iron stanchions with iron rails and yokes in front and troughs supplying water at all times through an equalization system of supply. The floors are concrete, with manure gutters in rear of stalls and mangers in front. The hay chute, cooling and mixing troughs are of concrete, as well as the loft floor and stairs. The roof is of fire-resisting composition to protect from the exterior, but not sufficiently fireproof to withstand terrific heat, such as results with burning hay. This is an innovation, as damaged hay and feed are practically worthless and with the roof can be replaced, while the danger to the stock on the first floor is more serious. With an outlet for the flames and reinforced concrete over and around the cattle the only damage to the insured crops and roof above would result and this from spontaneous combustion or accident in the loft proper. Another feature of recent work has been the number of moving picture establishments which have sprung into existence throughout the city, largely by alterations to existing buildings, many of which in protection to human beings afford quite the reverse to the animal protection in the dairy barn mentioned both from fire and ventilation.

Harbert, Claghorn & Hood, 1218 Chestnut street, have made settlement with J. Renwick Hogg, for two and a fifth acres of ground on Cross Roads, Merion, Pa. The purchaser will improve the same.

Henry D. Dagitt, architect, 411 Walnut street, is engaged on plans for alterations and additions to the parochial school of St. Dominico's Roman Catholic parish in Holmesburg, to cost about \$10,000.

Ballinger & Perrot, architects, 1211 Arch street, have plans on boards for a three-story parochial residence, to be built in West Chester, Pa., to cost about \$30,000, for St.

Agatha's Roman Catholic Church of that place.

Solomon Greenberg, Land Title Building has bought the property at the southeast corner of Broad and Dauphin streets, measuring 20 x 151 feet, for the purpose of building a four-story concrete garage on the site.

F. Russell Stuckert, architect, 1420 Chestnut street, is engaged on plans for alteration to the building of the Bethlehem Presbyterian Church, at the northeast corner of Broad and Diamond streets, to cost in the neighborhood of \$30,000.

Bissell & Sinkler, architects, Bailey Building, have completed plans and specifications and forwarded the same to the owner for a two and a half-story frame and stucco residence, measuring 66 x 67 feet, to be built at Sparrows Point, for Quincy Bent.

Brockie & Hastings, architects, 328 Chestnut street, have invited estimates on the two buildings, to be built in Meadowbrook for the Children's Village of the Seybert Institution, consisting of a barn, 90½ x 98.1 feet and a shop, 74 x 23 feet, with a wing, 52 x 25 feet.

Robert A. Patton, builder, Thirty-fifth and Mantua avenue, has bought a large tract of ground at Fifty-fifth and Catharine streets from Frank S. Elliott. Two lots, 60 x 80 feet each, on the south side of Pine street, east of Fifty-sixth street, have been sold by Frank S. Elliott also to Frederick Sabin.

E. Allen Wilson, architect, 815 Land Title Building, has finished plans and specifications for fourteen three-story twin dwellings, measuring 16 x 56 feet each, to be built at Fifty-first and Walnut streets, for Harry P. Havens, owner and builder. They will contain twelve rooms each, with every modern appointment.

Druckemiller & Stackhouse, architects Real Estate Trust Building, southeast corner Broad and Arch streets, are engaged on plans for a two and a half-story residence, to be built in Edge Hill, for George Pratt, to cost about \$5,000. The same architects also have a commission to design a two and a half-story residence, to be built at the same place, for George Harvey, to cost about \$10,000.

The Fairmount Foundry Company, at Duncannon and Mascher streets, have bought the thirty-six acre tract of land, at Rising Sun Lane and Olney avenue for a consideration of \$43,089.60. It is stated that the purchase was made for the purpose of erecting a large addition to its plant, but Daniel H. Redmond secretary and treasurer of the company, denied this rumor and states that he made the purchase personally.

Mr. Andrew Carnegie's offer of four hundred and fifty acres of ground in the mountains at Cresson, Pa., has been accepted as a site for a State Sanatorium for the treatment of Tuberculosis. Commissioner of Health Dr. Samuel G. Dixon consulted Governor Stuart regarding the matter and it was decided to accept the land. Plans will be prepared at once for the necessary buildings and work on their construction will be started as soon as possible.

Frank Keagy, architect, 576 North Main street, Chambersburg, Pa., has just finished plans for a brick twin dwelling, to be built on Baltimore avenue, for the Rev. J. Harper Black, at Chambersburg, Pa., of Bradford No. 1 brick, hardwood floors and trimmings, gas and electric lighting, low down grates and hardwood mantels and stairs, steam heat on one side and hot air furnace on the other; bath equipment will be of the Standard Sanitary Manufacturing Co., Pittsburg, Pa.

The cost will be about \$5,000. The plans are now ready for bids.—The Borough Council of Chambersburg, Pa., is receiving bids for a fire engine house, to cost about \$8,000. Concrete and various kinds of cement work will enter into its construction; also electric wiring, the latest and best stall and stable fixtures, Spanish tile roofing, and an up to date equipment throughout. Plans made by M. R. Rhoads of the same place.

George Spencer Morris and Richard Erskine, architects, Crozer Building, 1420 Chestnut street, have distributed plans and specifications among builders for estimates upon the proposed new stone Gothic style edifice, measuring 167 x 77 feet 10 inches, to be built in Olney, for St. James's Methodist Episcopal congregation. The following builders are estimating: R. C. Ballinger & Co., William R. Dougherty, Cramp & Co., the H. E. Grau Co., F. L. Hoover & Sons, Joseph Steelman, the H. B. Deal Co. and B. Ketcham's Son.

Carl P. Berger, architect, 1416-1418 South Penn Square, has invited estimates on plans and specifications for a new club house, hall and stores building for the Lieder Kranz, at the northwest corner of Marston street and Columbia avenue, between Twenty-seventh and Twenty-eighth streets. Building 69 x 85 feet. First floor contains three stores on Columbia avenue, with entrance to hall and club house, with banquet room, bar, committee rooms, ladies' parlor, locker rooms, toilets, wardrobe and private entrance for members on Marston street. The second floor has a concert hall, 70 x 63 feet, stage, retiring rooms, toilets and wardrobe. Third floor has store rooms. Basement has store cellars, club house ratscheller, Billiard room, three bowling alleys, kitchen, toilets, refrigerators, heating rooms. Exterior in brick and stone. The following builders are estimating: I. S. Cornell & Son, Geo. Kessler, A. R. Raff, The Philip Halbach Construction Co., Frank I. Wintz, H. B. Shoemaker, Herman Voigt, and Jas. G. Doak & Co.

He follows us, and divide his 240,000 by 15,880, he will find that his statement embraces over 15.15 miles of empty houses of all kinds in a single session of this city, which while important, is a residential part of the city. GINGER!

GINGER!!

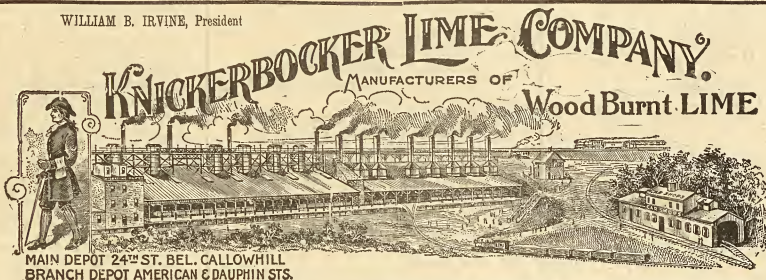

GINGER!!!

The placing of orders recently by several of our Eastern Railroads for 325,000 tons of steel rails, means an infusion of *ginger* in industrial energy far beyond the comprehension of most men. Follow, if you can, the potent influence this will have on labor. The labor involved in getting the iron ore; the making of hundreds of thousands of tons of steel rails, and their transportation; the laying of the rails; the new ties that will be used and the labor involved in their production as well as the labor in placing them: Yes, labor, labor, labor in every direction, even to the turning of the wheels over these self same thousands of tons of steel rails. It is the *ginger* in business that pushes things onward and upward, until the whole world is amazed at the wonderful prosperity of the people of the United States. There is *ginger* in the knowledge as to who needs you, who must make contracts for work and material. The columns of the REAL ESTATE RECORD are filled weekly with this kind of *ginger*, and there are thousands right here who know it. This *ginger* costs but little. Subscribe now and cash up. Subscription \$5.00 per year always in advance.

It is stated that Mr. Andrew Carnegie has decided to provide funds for the erection of a stadium for the pupils of the Technical Institute in Pittsburgh, Pa. The estimated cost is about \$70,000.

The congregation of Adath Jeshuran, now worshipping on Seventh street above Columbia avenue, has bought the property at 2109-15 North Broad street as a site for their proposed new synagogue.

William C. Benkert, Real Estate Trust Building, has sold the property at 911-13 North Broad street, to Louis J. Kolb, who already owns several adjoining properties. A large bakery will be built on the site in the near future.

F. Russell Stuckert, architect, 1420 Chestnut street, has been engaged to prepare plans and specifications for a three-story brick and stone flat house, measuring 40 x 70 feet, to be built at Fortieth and Forging Garden streets. Owner's name withheld for the present.

Wilson, Harris & Richards, architects, Drexel Building, have invited estimates on the stone church and Sunday school building to be built at Wayne avenue and Queen street, Germantown, for the Methodist Episcopal Church of the Advocate, to cost about \$150,000. J. E. & A. L. Pennock and H. B. Shoemaker have plans posted.

Huey & Christ, of 1209 Market street, having disposed of that property for \$245,000, have leased 1308 Arch street, with the privilege of buying the same at or before the expiration of the lease, which is for one year. It is a four-story structure, 20 x 137 feet. Joseph P. Bird and Stacy Reeves & Sons, builders, are estimating on alterations to the same, to cost about \$7,000.

GINGER!

GINGER!!

GINGER!!!

The placing of orders recently by several of our Eastern Railroads for 325,000 tons of steel rails, means an infusion of *ginger* in industrial energy far beyond the comprehension of most men. Follow, if you can, the potent influence this will have on labor. The labor involved in getting the iron ore; the making of hundreds of thousands of tons of steel rails, and their transportation; the laying of the rails; the new ties that will be used and the labor involved in their production as well as the labor in placing them. Yes, labor, labor, labor in every direction, even to the turning of the wheels over these self same thousands of tons of steel rails. It is the *ginger* in business that pushes things onward and upward, until the whole world is amazed at the wonderful prosperity of the people of the United States. There is *ginger* in the knowledge as to who needs you, who must make contracts for work and material. The columns of the REAL ESTATE RECORD are filled weekly with this kind of *ginger*, and there are thousands right here who know it. This *ginger* costs but little. Subscribe now and cash up. Subscription \$5.00 per year always in advance.

GINGER!

GINGER!!

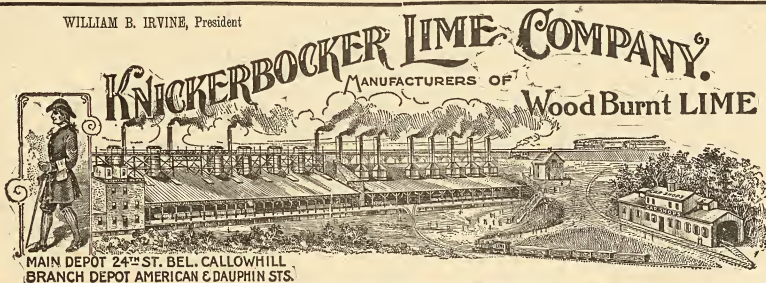

GINGER!!!

The placing of orders recently by several of our Eastern Railroads for 325,000 tons of steel rails, means an infusion of *ginger* in industrial energy far beyond the comprehension of most men. Follow, if you can, the potent influence this will have on labor. The labor involved in getting the iron ore; the making of hundreds of thousands of tons of steel rails, and their transportation; the laying of the rails; the new ties that will be used and the labor involved in their production as well as the labor in placing them. Yes, labor, labor, labor in every direction, even to the turning of the wheels over these self same thousands of tons of steel rails. It is the *ginger* in business that pushes things onward and upward, until the whole world is amazed at the wonderful prosperity of the people of the United States. There is *ginger* in the knowledge as to who needs you, who must make contracts for work and material. The columns of the REAL ESTATE RECORD are filled weekly with this kind of *ginger*, and there are thousands right here who know it. This *ginger* costs but little. Subscribe now and cash up. ARCHITECTS' NOTES.

The Methodist Episcopal Church, of Georgetown, Delaware, was destroyed by fire last week.

Charles S. Powell, 727 Walnut street, has sold a fifty-five acre farm at Grossland, Delaware county, Pa., to Charles S. Hirst.

Hirst & McMullin, West End Trust Building, have sold a twenty-seven acre tract of ground on the Newtown Road, below Radnor, Pa., to W. W. Atterbury.

A. A. Richter, architect, 779 Cumberland street, Lebanon, Pa., will invite estimates shortly on the erection of the proposed new stone edifice to be built at Frankford avenue and Foulkrod street, this city, for the Frankford Avenue Methodist Episcopal congregation.

Brookie & Hastings, architects, 328 Chestnut street, have invited estimates on alterations and additions to the east end of the north pavilion of the Philadelphia Museums, Thirty-third street and Vintage avenue. William R. Dougherty, George Hogg and Edward Fay & Son, builders are estimating.

Francis G. Caldwell, architect, 1433 Chestnut street, has completed plans and specifications for a two-story and basement residence, 50 x 36 feet, to be built in Jenkintown, Pa., for M. L. Kohler. The plans call for a structure on the bungalow style, to contain fifteen rooms, with every modern appointment and convenience.

The Equitable Trust Company, Broad above Chestnut street, has sold two tracts of ground on Wynnefield avenue, above Bryn Mawr avenue, at the Wynnefield station of the Pennsylvania Railroad. One has a frontage of 680 feet, and the other 500 feet. The sale was made for the Anna M. White estate, to Clarence P. Wynne.

Druckemiller & Stackhouse, architects, Land Title Building, have plans on boards for a three-story stone residence, to be built in Lansdowne, Pa., to cost about \$10,000, for Charles H. Clarke. The same architects have completed plans and specifications for two two and a half-story stone residences to be built in Cynwyd, Pa., for the Lower Merion Realty Co.

E. Simpson Lemonum, architect, Post Office Box 389, has plans in the course of preparation for a moving picture theatre, with a frontage of 100 feet, and a depth of 126 feet, to be built on the north side of Lehigh avenue east of Germantown avenue, for the Lehigh Palace Amusement Company. The exterior will be of ornamental plaster, marble and

terra cotta. It will be fireproof with a 50 foot stage and a seating capacity of about 1,800 persons.

About 142 acres of land near Jamaica, Long Island, have been reconveyed to the Sage Foundation Home Company, upon which will be erected model homes for workmen, a project which Mrs. Russel Sage has endowed with millions. Another tract of 47¾ acres has also been transferred, giving the Foundation nearly 200 acres, with a frontage of about 9000 feet on main streets.

P. F. Kernan, 1201 Chestnut street, has bought for Archbishop Ryan, from the Dicey estate, a site 250 feet on Broad street, 180 feet on Duncannon avenue, and 250 feet on Carlisle street, for \$45,000. The purchase was made for the purpose of erecting a new Catholic church thereon, of which Father McCaffrey, assistant at St. Edward's Church, at Eighth and Dauphin streets, will be made rector.

C. Shuller. The same architect has plans on boards for a two-story brick store, 17½ x 79 feet, to be built on the west side of Germantown avenue, above York street, for Christian Stengle.

Rev. M. G. Scully, who has charge of St. Charles Roman Catholic Church, at Clifton Heights, Delaware county, Pa., announced recently to his congregation that a new parochial school building would be erected next year. No details have been settled, but it is stated that the structure will be large and will be provided with all modern facilities for educational purposes and that one of the features will be a commodious and well equipped auditorium.

The Knights of Columbus have purchased the property at the northwest corner of Broad and Poplar streets, upon which it is proposed to build their new five-story hall building, measuring 60 x 100 feet. It is stated that no architect has yet been decided upon to plan the new structure.

Architects have been invited to send in plans for a church to be erected at Glassport, Pa., for the Saint Cecilia's Roman Catholic congregation, at Vermont and Eighth

ARCHITECTS' NOTES

Samuel H. French & Co., established for sixty-five years without a break of any kind, advise those who use paint that the present outlook indicates good business and higher prices for painting material. You ought to know something about the merits of "Buck White Lead." We personally know a thing or two as to its value when compared with other paints, for we have used it on boats, houses and fences with the most satisfactory results. Indeed, the house which we occupy, painted with Buck White Lead, nine years ago, we submit as an example of our justification for this assertion, for it looks quite as well as those of our neighbors which have been painted twice during the same period. We personally know Buck White Lead to be invulnerable to salt water influences. Under the hardest knocks the boat, painted with Buck White Lead, at the end of a summer's hard use, looks quite as well after being sponged off as it did when first painted. This evidence is so plain that a man could hardly fail to see its significance. We do not know the component parts of Buck White Lead, nor do we care. We write from a practical experience and we know that when Buck White Lead is used with pure linseed oil, it stays there without "chalking" or scaling, and indeed, it will stand the hardest kind of wear. Those who know even more about Buck White Lead than we do, eulogize its uniform consistency and state that it will take five gallons of thinner to every hundred pounds of material, and that it is even whiter than pure white lead. There is nothing so thoroughly disgusting and discouraging to the man who has paid a heavy painter's bill than to recognize that his painting is going to pieces about as fast as the elements can make it, and this holds good for both outside and inside work. We have recommended its use to many friends and in every instance they have declared Buck White Lead to be all right. What better endorsement could be given anything?

It is stated that St. Catharine's Roman Catholic Church, of Dubois, Pa., recently destroyed by fire, will be rebuilt.

E. Allen Wilson, architect, 815 Land Title Building, is preparing preliminary sketches for a Colonial residence to be erected at Three Tuns, Pa.

Furness, Evans & Co., architects, Provident Building, have invited estimates on two story and basement wings, 36 x 41½ feet, and 17 x 13 feet, to the Bryn Mawr Hospital, in Bryn Mawr, Pa. Jacob Myers & Sons are estimating.

Ralph E. White, architect, Pennsylvania Building, Fifteenth and Chestnut streets, has invited estimates on the stable, 42.7 x 26.11 feet, to be built on the Mary L. Coleman estate in Villanova, Pa.

Wm. H. Wilson & Co., 1318 Chestnut street, have sold the country estate of T. Beakley, in Penllyn, Pa., to Thomas C. Foster, for \$18,000, who will make alterations and occupy the same.

Thomas Stephen, architect, Temple Building, Camden, N. J., has plans in hand for an addition to the Home for the Aged and Infirm Methodists in Camden, the cost of which will be about \$20,000.

De Armont & Ashmead, architects, 618 Chestnut street, have invited bids on the four-story frame hotel building, to be erected in Pine Beach, N. J., for the Pine Beach Improvement Co. Previously noted.

Wilson, Harris & Richards, architects, Drexel Building, have been commissioned to design the new edifice for the Somerville Presbyterian congregation, to be erected at Limekiln Pike and Cheltenham avenue.

Anderson & Haupt, architects, 820 Drexel Building, have plans on boards for a four-story brick and stone school building, to be built at 314-316 Catharine street, for the Hebrew Free School, to cost about \$50,000.

Robeson Lea Perot, architect, 260 South Fifteenth street, is revising the plans for the one-story stone edifice, measuring 75 x 75 feet, to be built at Twenty-ninth and Oakdale streets, for the Lutheran Church of the Mediator.

Henry L. Reinhold, Jr., architect, northeast corner of Tenth and Sansom streets, will invite bids in about three weeks on the

fifteen two-story brick dwellings, to be built in Bryn Mawr, Pa., from his plans for Richard Kilday.

Seymour Davis and Paul A. Davis, 3d, architects, 1600 Chestnut street, have been engaged to design a one and one-half-story brick bank building, measuring 30 x 82 feet, to be built in Milton, Pa., for the Milton National Bank.

Nathan Snellenburg has sold to Leah Balen, a tract of ground at the southeast corner of Sixtieth and Walnut streets, measuring 500 feet on Walnut, 300 feet on St. James, and 119 feet on Sixtieth street. The consideration is \$25,000.

Edgar V. Seeler, architect, Real Estate Trust Building, Broad and Chestnut streets, has plans in the course of preparation for a brick and fireproof warehouse, to be built at Twelfth street and Washington avenue, for the Curtis Publishing Company.

BUILDING AND REAL ESTATE NOTES

GINGER!

GINGER!!

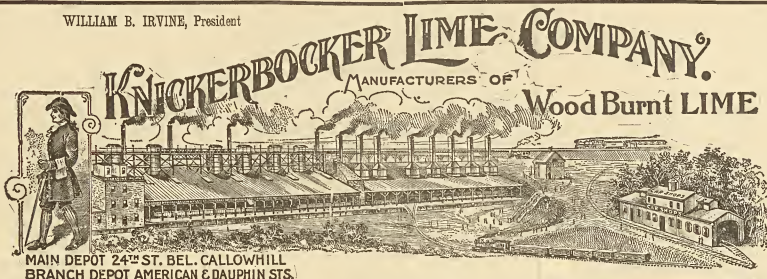

GINGER!!!

The placing of orders recently by several of our Eastern Railroads for 325,000 tons of steel rails, means an infusion of *ginger* in industrial energy far beyond the comprehension of most men. Follow, if you can, the potent influence this will have on labor. The labor involved in getting the iron ore; the making of hundreds of thousands of tons of steel rails, and their transportation; the laying of the rails; the new ties that will be used and the labor involved in their production as well as the labor in placing them. Yes, labor, labor, labor in every direction, even to the turning of the wheels over these self same thousands of tons of steel rails. It is the *ginger* in business that pushes things onward and upward, until the whole world is amazed at the wonderful prosperity of the people of the United States. There is *ginger* in the knowledge as to who needs you, who must make contracts for work and material. The columns of the REAL ESTATE RECORD are filled weekly with this kind of *ginger*, and there are thousands right here who know it. This *ginger* costs but little. Subscribe now and cash up. Subscription \$5.00 per year always in advance.

ARCHITECTS' NOTES

The Lakewood Terrace Hotel and Sanitarium Company, 627 Witherspoon Building, will want estimates shortly for the four-story brick, reinforced concrete and hollow tile hotel and sanitarium, measuring 200 x 140 feet, to be built in Lakewood, N. J., at a cost of about \$300,000. The plans for the proposed structure are in the course of completion by Architect D. Wiley Anderson, 923 East Main street, Richmond, Va. Dr. A. Trego Shertzer, 23 W. Preston street, Baltimore, Md., is president, and T. B. Shertzer, care of the Public Service Commission, 154 Nassau street, New York City, is the engineer.

Walter F. Price, architect, 714 Walnut street, has completed plans for a two-and-a-half-story stone residence, measuring 42 x 25 feet, to be built in Moylan, Pa., for Mrs. Samuel Milliken.

E. Allen Wilson, architect, 815 Land Title Building, is taking bids on eight two-story brick dwellings, measuring 18 x 66 feet each, to be built at Fifty-fourth and Sansom streets, for Oliver P. Fisher.

The Manufacturers' Club has taken title to the old Bellevue hotel property at the northwest corner of Broad and Walnut streets as a site for their proposed new club house, which will be built in the future.

George E. Savage, architect, Witherspoon Building, has plans in the course of preparation for a new stone edifice to be built in Princeton, N. J., for the Princeton M. E. Church, to cost about \$50,000.

Simon & Bassett, architects, 1112 Chestnut street, are receiving estimates on a two-and-a-half-story residence to be built in Elkins Park, at a cost of about \$10,000, and one in Oak Lane to cost about \$8,000.

Benjamin R. Stevens, architect, Bulletin Building, has plans on boards for the proposed new building, to be built in Bryn Mawr, Pa., for the Young Men's Christian Association, of that place.

Druckemiller, Stackhouse & Williams, architects, Land Title Building, have invited estimates on the new residence to be built in Cynwyd, Pa., for Edward Waters. A. L. Fretz & Son, builders, are estimating.

G. A. Bisler, Inc., 247 North Sixth street, has commissioned Architect John G. Brown to design a five story and basement factory building 36 x 100 feet, of concrete and fire-proof construction, to be built on the site at 245 and 247 North Sixth street, to cost about \$40,000.

F. Russell Stuckert, architect, has plans under way for the proposed alterations and a three-story rear addition to the residence at 1915 East Dauphin street, for H. Grossman.

Milligan & Webber, architects, 520 Walnut street, have plans in the course of preparation for a four-story brick and terra cotta bachelor apartment house, measuring 50 x 190 feet, to be built on Chestnut, west of Thirty-seventh street.

Joshua M. Holmes, 160 W. Luray street, Germantown, has bought a tract of ground measuring 384 x 299 feet, at the southwest corner of Wayne avenue and Logan street. It will be improved by the erection of modern dwellings.

The Stephen Green estate, who own and occupy the building at the northeast corner of Sixteenth and Arch streets, has bought the adjoining properties on the east side of Sixteenth, above Arch street. It is stated that the purchase was made for the purpose of building an addition to their present building.

Duhring, Okie & Ziegler, architects, 1218 Chestnut street, have invited estimates on the three-story stone and rough cast residence to be built in the English style of architecture in St. Martin's for Ira I. Williams. Jacob Myers & Sons, Burd P. Evans & Co., Appleton & Burrell and J. H. Stitzer, builders, are estimating.

It has been unofficially announced by the Board of Trustees of Princeton University that the graduates have raised sufficient funds to continue the erection of the southern wing of the proposed group of buildings in the northwest corner of the campus. Mrs. Russell Sage has given \$250,000 toward the cost of the buildings.

Bailey & Bassett, architects, 421 Chestnut street, have been engaged to design a three-story residence for Francis M. Brooke, to be built near Bryn Mawr, Pa. The plans will call for a handsome stone structure, measuring 100 x 40 feet, with shingle roof and every modern appointment on the interior. It is the owner's intention to build a fire-proof stone garage at the same place in the future.

In the event of the Philmont Country Club exercising its option to purchase the Tredinnock estate of 130 acres, near Elkins Park, belonging to Walter M. Ostrander, the club will make alterations and improvements. A locker building will be erected and the land laid out for a base ball field and lawn tennis grounds, in addition to the golf course. Ellis A. Gim-

bel is president of the club; Jacob Espen, Jr., vice-president; Ely K. Selig, treasurer, and Charles Edwin Fox, secretary.

At a recent meeting of the State Grand Lodge of Masons, held in the Masonic Temple, a committee, of which Judge George B. Orlandy is chairman, recommended that the Grand Lodge acquire a tract of 800 acres at Elizabethtown, Pa., for the purpose of erecting a State home for Masons. Elizabethtown is on the main line of the Pennsylvania Railroad, near Harrisburg. A home for orphans, which is provided for in the will of a wealthy Mason, may also be a part of the establishment.

A number of prominent Philadelphians have formed a new club, to be known as the Ocean City Motor Boat Club, of Ocean City, N. J. It is the new club's purpose to erect a club house, for which plans have been drawn, and it is stated that efforts will be made to have the building ready for occupancy by the opening of the season, next year. Henry D. LeCato, of Audubon, who has been chosen to secure a site on the bay front, has obtained an option on a lot, 100 feet wide, at Fourteenth street, owned by Captain C. L. Hagy, Jr., of Philadelphia, who is also a member of the club. The officers of the club are: President, William D. Snow; treasurer, G. Alvin Snook, an instructor in the Central High School; secretary, James H. Riddell; trustees, W. D. Snow, Thomas Pollis, J. L. Prestwich and Clarence W. Wilson.

The Board of Trustees of Old Christ Church, on Second street above Market, as a means of protecting the old historic structure from fire, have decided to demolish a rear building, fronting on American street, now used as a Sunday school. In addition to this the trustees of the church have also purchased the properties at Nos 205-07 Church street, occupying a lot, 36 x 122 feet, for \$23,000, on the site of which it is proposed to erect a \$50,000 parish house of fire-proof construction. This will be a new departure for the congregation, as it has never been deemed necessary to have a building of this kind, owing to the fact that its members generally live at a great distance from the church, but recently it was decided that the neighborhood was a promising field for missionary work among the foreign element of the river wards. These will receive particular attention when the new building is completed.

GINGER!

GINGER!!

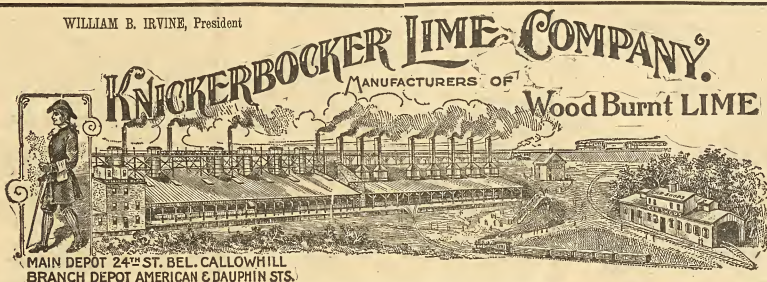

GINGER!!!

The placing of orders recently by several of our Eastern Railroads for 325,000 tons of steel rails, means an infusion of *ginger* in industrial energy far beyond the comprehension of most men. Follow, if you can, the potent influence this will have on labor. The labor involved in getting the iron ore; the making of hundreds of thousands of tons of steel rails, and their transportation; the laying of the rails; the new ties that will be used and the labor involved in their production as well as the labor in placing them. Yes, labor, labor, labor in every direction, even to the turning of the wheels over these self same thousands of tons of steel rails. It is the *ginger* in business that pushes things onward and upward, until the whole world is amazed at the wonderful prosperity of the people of the United States. There is *ginger* in the knowledge as to who needs you, who must make contracts for work and material. The columns of the REAL ESTATE RECORD are filled weekly with this kind of *ginger*, and there are thousands right here who know it. This *ginger* costs but little. Subscribe now and cash up. ARCHITECTS' NOTES

Ralph E. White, architect, Pennsylvania Building, Fifteenth and Chestnut streets, has the plans under way for the parish house, to be built on American street, above Market, for Old Christ Church. The designs call for an attractive structure in the Colonial style of architecture, three stories in height, 150 x 40 feet, of brick and stone. The trustees in charge of the work consist of J. Brinton White, Dr. W. Easterly Ashton Allen Childs and Dr. Louis C. Washburn, the rector. Previously noted in our last issue.

John H. Sinberg has opened a suite of offices in the Bailey Building, at 1218 Chestnut street, for the transaction of a general real estate and mortgage business.

Henry E. DeHoff, architect, 48 South Sixty-first street, has plans in the course of preparation for a two and a half-story stone residence, to be built in Llanerch, Delaware county, Pa.

Stearns and Castor, architects, Stephen Girard Building, have completed plans for alterations and improvements to the building at the northeast corner of Sixteenth and Walnut streets, for store and apartment purposes, for Masbaum & Fleisher.

The Standing Committee of the Episcopal Diocese, of Harrisburg, Pa., has recommended that St. Paul's Episcopal Church, at Sixth and Forster streets, Harrisburg, be moved to a site above Peffer street. Rev. Rollin A. Sawyer, 309 North Front street, is chairman of the committee.

C. Henry Stinson, 317 Swede street, Norristown, Pa., heading a Norristown syndicate, has bought the Hotel Cresson, at Montpelier avenue, and the beach, in Chelsea, N. J., measuring 92 x 200 feet, for \$100,000. It is stated that an addition will be built to the front, and other improvements made.

A tract of ground on the west side of Broad street, 106½ feet below Godfrey avenue, and one, 214½ x 561.8 feet, at the southwest corner of Broad and Sparks streets, have been sold by Edward B. Mickel to Josephine Brown. The tracts are part of the George De Benneville Keim estate, now engaged in the harness business, on Market street.

Savery, Scheetz & Savery, architects, Stephen Girard Building, have distributed plans for estimates on the two and a half-story terra cotta and pebble dashed block house to be built in Moylan, for W. W. Jacob. R. C. Ballinger & Co., W. C. Shuster, Jr., James B. Flounders, Benj. Willard, Jackson Bros., and Charles T. Moore, builders, are estimating.

Solomon Greenburg, Land Title Building, has sold to Lamb & Company, for a client, one hundred and forty building lots on the west side of Sixty-second street, above Media street, and the west side of Media above Master street, and on both sides of Felton street below Lansdowne avenue. The purchaser proposes to build an operation of modern porch front stores and dwellings on the site.

Bernard Corr, 1304 North Broad street, has given Archbishop Ryan the inheritance which he intended to give to his son, the late Bernard J. Corr. The money is to be devoted to building the proposed new edifice at Broad and Duncannon streets, for the new Catholic parish of the Holy Child at Logan, recently created by the Archbishop. The cost of the new structure has not been decided upon, but a committee is now working on the plans.

Otto C. Wolf, architect, Denckla Building, northwest corner of Eleventh and Market streets, has invited estimates on the two-story brick office building and saloon, to be built at the southeast corner of Clarion and Fitzwater streets, for the Consumers' Brewing Company. The Pomeroy Construction Co., John N. Gill & Co., Frank T. Maguire, E. E. Hollenback, John R. Wiggins & Co., Metzger & Wells, Fred A. Havens & Co. and A. Raymond Raff builders, are estimating.

At the monthly meeting of the Board of Trustees of the Methodist Hospital held in the building at Broad and Wolf streets, action was taken on the proposed new buildings to be erected at a cost of about \$25,000. Frank A. Freeman, vice-president, agreed to have an elevator to cost \$6,000 installed. The offer was made by Mr. Freeman, on condition that others would erect a new building in which will be the hospital kitchen, the living rooms and sleeping rooms for officers, resident physicians and female help.

Clyde S. Adams, architect, 1233 Arch street, has plans in the course of preparation for a one-story brick moving picture theatre, measuring 50 x 200 feet, to be built on Frankford avenue, near Ontario street, to cost about \$20,000. Frank Miles Day & Bro., architects, 925 Chestnut street, have started the preparation of plans and specifications for the new southern wing of the dormitory building for the Princeton University, in Princeton, N. J. The plans will call for a fire-proof structure, 210 x 35 feet, to match architecturally with the present buildings. The cost will be about \$100,000.

The Southern Commercial Congress met in Washington, D. C., and adopted a financial plan on Monday, December the seventh, to build a \$1,000,000 permanent home in Washington. Officers were elected and all Southern states were given representation on the board of directors. \$100,000 has been subscribed to the capital stock of a building corporation, which will issue bonds to build the new structure, which is to be one of the finest office buildings ever erected in Washington.

WALL SAFES FOR DWELLINGS

It is established beyond controversy, through our installation of hundreds of *Mellink's Steel Wall Safes* in the dwellings erected by our operative builders during the present year that the Wall Safe with its combination lock is invaluable as a selling factor in the sale of dwellings as well as in the rental of these small houses. The cost of installation including the cost of the *Mellink Steel Wall Safe* is small but the feeling of security appeals to the common sense of the proposed occupant so strongly that there are plenty of instances in which the *Mellink Safe* commanded the preference as to houses and sales were effected which were directly traceable to the influence of the *Mellink Steel Wall Safe*.

GINGER!

GINGER!!

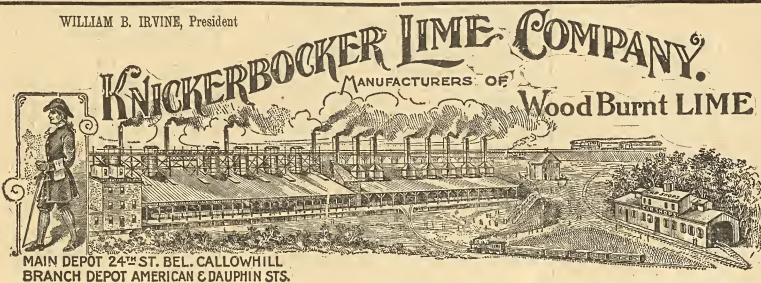

GINGER!!!

The placing of orders recently by several of our Eastern Railroads for 325,000 tons of steel rails, means an infusion of *ginger* in industrial energy far beyond the comprehension of most men. Follow, if you can, the potent influence this will have on labor. The labor involved in getting the iron ore; the making of hundreds of thousands of tons of steel rails, and their transportation; the laying of the rails; the new ties that will be used and the labor involved in their production as well as the labor in placing them. Yes, labor, labor, labor in every direction, even to the turning of the wheels over these self same thousands of tons of steel rails. It is the *ginger* in business that pushes things onward and upward, until the whole world is amazed at the wonderful prosperity of the people of the United States. There is *ginger* in the knowledge as to who needs you, who must make contracts for work and material. The columns of the REAL ESTATE RECORD are filled weekly with this kind of *ginger*, and there are thousands right here who know it. This *ginger* costs but little. Subscribe now and cash up. Subscription \$5.00 per year always in advance.

GINGER!

GINGER!!

GINGER!!!

The placing of orders recently by several of our Eastern Railroads for 325,000 tons of steel rails, means an infusion of *ginger* in industrial energy far beyond the comprehension of most men. Follow, if you can, the potent influence this will have on labor. The labor involved in getting the iron ore; the making of hundreds of thousands of tons of steel rails, and their transportation; the laying of the rails; the new ties that will be used and the labor involved in their production as well as the labor in placing them. Yes, labor, labor, labor in every direction, even to the turning of the wheels over these self same thousands of tons of steel rails. It is the *ginger* in business that pushes things onward and upward, until the whole world is amazed at the wonderful prosperity of the people of the United States. There is *ginger* in the knowledge as to who needs you, who must make contracts for work and material. The columns of the REAL ESTATE RECORD are filled weekly with this kind of *ginger*, and there are thousands right here who know it. This *ginger* costs but little. Subscribe now and cash up. Subscription \$5.00 per year always in advance.

BUILDING AND REAL ESTATE NOTES

The Real Estate Record is pleased to acknowledge the receipt from Frank E. Wallace, contractor and builder, 1210 Sansom street, of an elegant and attractive calendar for the year 1910, and it begs to convey its hearty thanks for this courteous remembrance from this enterprising and reliable constructor. With each succeeding year it would seem that the limit had been reached in designing such neat and quietly elegant calendars as Mr. Wallace so kindly favors his constituents with, but just as often the genial contractor provides something just a little better, and this year's beautiful work of art furnishes no exception to this rule.

J. E. & A. L. Pennock, builders, 1210 Sansom street, have plans posted for the new residence and garage, to be built in Bryn Mawr, Pa., for Francis M. Brooke. Plans by Bailey & Bassett architects.

GINGER!

GINGER!!

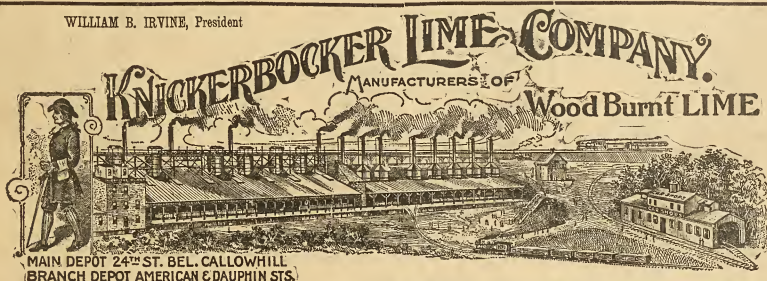

GINGER!!!

The placing of orders recently by several of our Eastern Railroads for 325,000 tons of steel rails, means an infusion of *ginger* in industrial energy far beyond the comprehension of most men. Follow, if you can, the potent influence this will have on labor. The labor involved in getting the iron ore; the making of hundreds of thousands of tons of steel rails, and their transportation; the laying of the rails; the new ties that will be used and the labor involved in their production as well as the labor in placing them. Yes, labor, labor, labor in every direction, even to the turning of the wheels over these self same thousands of tons of steel rails. It is the *ginger* in business that pushes things onward and upward, until the whole world is amazed at the wonderful prosperity of the people of the United States. There is *ginger* in the knowledge as to who needs you, who must make contracts for work and material. The columns of the REAL ESTATE RECORD are filled weekly with this kind of *ginger*, and there are thousands right here who know it. This *ginger* costs but little. Subscribe now and cash up. Subscription \$5.00 per year always in advance.
